POSTAGE

Postal rates are calculated on your cart check-out page.

We use Australia Post for all our deliveries. Standard postal rates are used for parcels delivered in Australia and do not have a tracking system attached.

For International orders, we use the Australia Post Airmail system.

For postage rates outside these guidelines, please contact us.

DELIVERY

As all products are made to order (no stock kept on hand), please allow two to three weeks for us to manufacture your product, especially during our busiest times, eg: Father's Day and Christmas. Once your order has been taken to the forwarding agent (eg: Australia Post), delivery time is at their discretion.

INSURANCE

Once the order has passed to the forwarding agent (eg: Australia Post), the article is deemed to have been delivered.

For un-received items, all correspondence needs to be directed to the forwarding agent, although we will assist if possible.

Extra costs of Registered/Insured/Express Post will need to be borne by the purchaser. Please note that Berri is outside of the Express Post boundaries.
